

Terminal Solution Partner

One Source for All Your Terminal Needs

**We put you first.
And keep you ahead.**

FMC Technologies offers the widest range of equipment and automation systems to help your terminals achieve ...

- Higher throughput
- More accurate measurement
- Better inventory control
- Safer loading operations
- Increased profit

FMC Technologies provides comprehensive, single-source, end-to-end terminal solutions from the loading bay to the backoffice – for one terminal or hundreds, including:

- | | |
|---------------------------------|--------------------------|
| Terminal-level Business Systems | Presets |
| Business/TAS Host Systems | Loading Arms |
| ERP Integration | Loading Skids |
| Pipeline Strainers | Air Purgers |
| Meters | Eliminators |
| Flow Computers | Deaerators |
| Provers | Proximity Card Readers |
| Valves | On-Truck Loading Systems |
| Additive Injectors | ... and more. |

Tired of dealing with multiple third-party vendors? FMC Technologies is the only terminal solution partner you need. Not only can we supply most of your terminal equipment and automation needs, but we also develop and support all the major equipment and systems that we deliver.

World class project execution reduces risk

The world class functionality of FMC Technologies' products is matched by the world class project team that designs, develops, installs, and supports each system. Our project team is:

- Experienced in the oil, gas, and bulk liquid distribution sectors
- Guided by field-proven, documented project methodologies that are hailed by rigorous customer audits as unmatched in the industry
- Accomplished at delivering projects on time and on budget

Full range of project services from one company

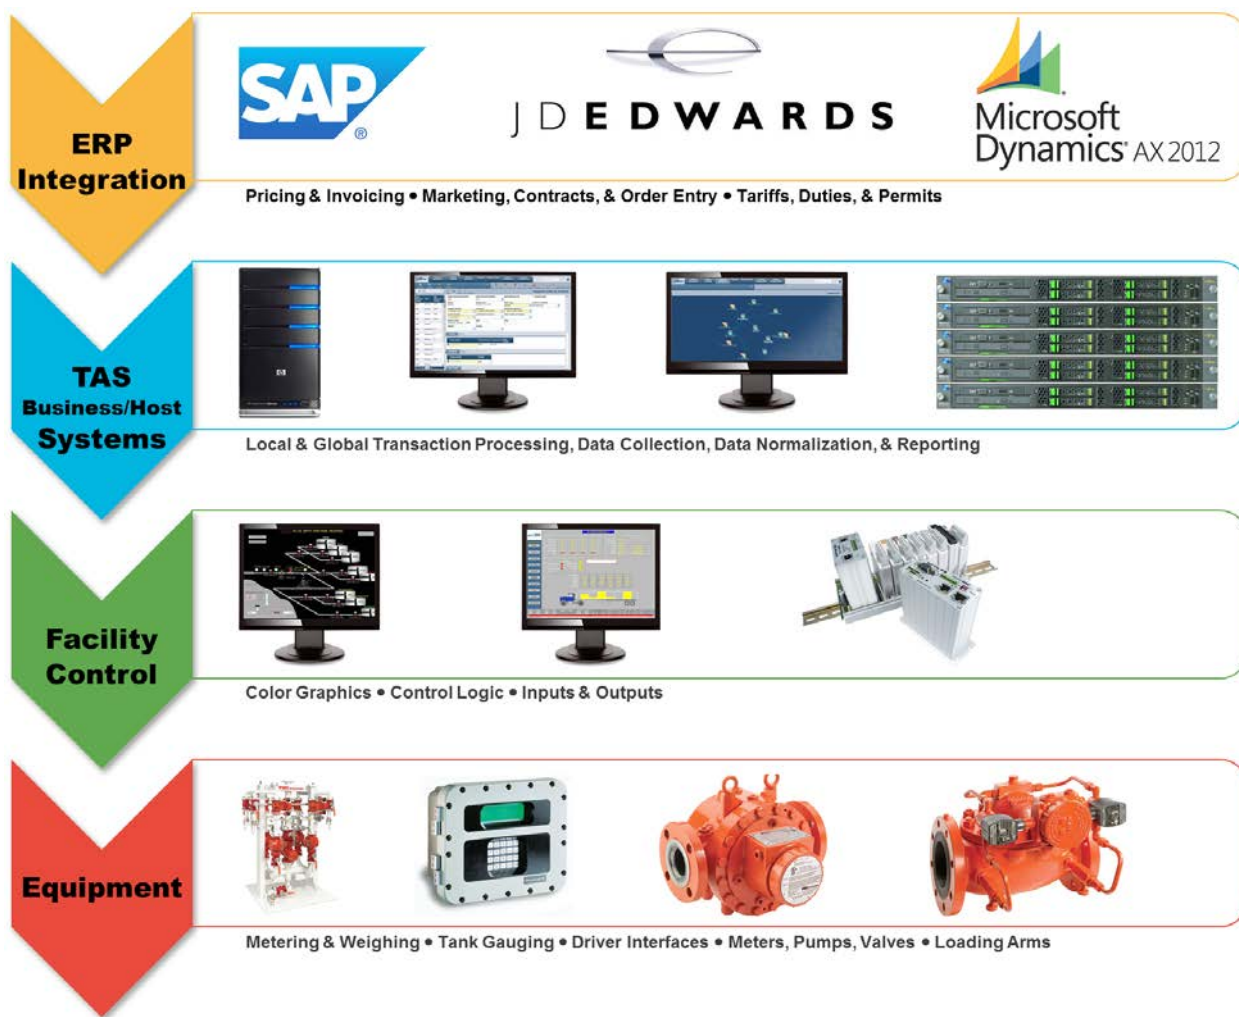

FMC Technologies has all the expertise and resources necessary to deliver your project from start to finish – and beyond, including:

- | | |
|--------------------------------|-------------------------------|
| Project Management | Instrument Engineering |
| System Design Specification | Application Development |
| System Planning | Regional & Worldwide Rollout |
| Standardization & Integration | Training & Documentation |
| System Configuration & Testing | System Maintenance |
| Hardware Procurement | Product & System Support |
| Installation & Commissioning | Long-Term Application Support |
